

Secure Venue Tablet

Dell Venue™ Tablet with Integrated ViaSat Eclipt® Hard Drive

- **Secures Data to Top Secret (UK/Canada) & Secret (NATO)**
- **Intel Core i5 Processor (4th Generation)**
- **Windows® 8.1 Pro Operating System**
- **High Resolution 10.8" Full HD Display**
- **4GB and 8GB RAM Options**

This customised solution from SST provides the portability of a tablet and the power of a laptop along with the ability to manage data up to Top Secret (United Kingdom and Canada) and Secret (NATO) levels. The standard model features an accredited ViaSat Eclipt® encrypted hard drive which is available for UK CAPS Top Secret, Canada Top Secret, NATO Secret, and FIPS 140-2.

The tablet comes standard with industry leading Intel Core i5 processor (4th generation) technology and supports Microsoft Windows® 8.1 Pro. It is the result of a multi-company collaboration between Dell, SST, and ViaSat ,and in conjunction with technology partners Microsoft and Intel. It is expandable and can be supplied with a variety of accessories, such as powered keyboards and docking stations, to complement the mobile working experience and extend battery life.

Additional security features include dual factor authentication which is supported via soft keyboard functionality, as well a TPM 1.2 chip and Noble lock slot.

For ordering information, including availability dates, please contact SST at +44 (0)1452 371999 in Europe or (613) 270-9009 in North America.
